

Certification

and

Approved by Furntech-AFRDI

based on AS/NZS 4088.1:1996 - Specification for burning behaviour of upholstered furniture - Part 1. Upholstery materials for domestic furniture - Smouldering ignitability;

Expires **27 July 2021**

Certificate No.

14419/1

AS 2282.3: 1999 - *Method 3.*Determination of apparent density of flexible cellular polyurethane; and

BS 5852:2006 - Methods of test for assessment of the ignitability of upholstered seating by smouldering and flaming ignition sources - Section 4.
Upholstery composites - Ignition Source 5

Supplier: Foamco Industries Pty Ltd

Description: HR 50-120

Certification is based on the above Standards and any additional testing and/or assessment conducted by Furntech-AFRDI during auditing processes.

The above foam has been assessed by Furntech-AFRDI to AS/NZS 4088.1 and AS 2282.3, and the composite (see below) has been assessed to BS 5852. The foam is prequalified for use in chairs certified to AS/NZS 4438: 1997 - Height adjustable swivel chairs, and AS/NZS 4688: 2000 - Fixed height chairs as either a seat or back foam up to and including level 6.

Assessment to BS 5852 Source 5 pertains to the following composite (foam/fabric)only:

Foam as per description above and flame retardant 100% polyester fabric.

The supplier having agreed to maintain the compliance of the product and to submit to retesting and auditing as appropriate, Furntech-AFRDI hereby certifies the product under the AFRDI Blue Tick Product Certification Program.

This Certification is valid for three years but may be suspended, revoked or renewed.
