

The Furntech-AFRDI Blue Tick **Fixed Height Chairs & Seating List**

**Certified fixed height chairs
(including Rated Load chairs)**

The following products have been found to comply with the certification requirements and have been certified under the Blue Tick Product Certification Program conducted by Australasian Furnishing Research & Development Institute (Furntech-AFRDI).

AS/NZS 4688 (levels 4, 5 and 6)

Most certified fixed height chairs in Australia and NZ are tested to the requirements of AS/NZS 4688:2000 Furniture - Fixed height chairs. This standard states that it is not for more than occasional use by people **over 100 kg**.

AFRDI 151 – Rated Load

This standard is designed to cater for chairs intended to be used by people **heavier than 100 kg**.

Certification Criteria

The Institute has clearly defined certification criteria for various items of furniture and furniture components. These are continually being expanded to meet demand.

The criteria generally include requirements for:

- (i) strength
- (ii) durability
- (iii) stability
- (iv) function e.g. fitness for purpose (usually including ergonomic and basic safety criteria)
- (v) flammability (where appropriate)
- (vi) reasonable finish and workmanship

The performance criteria adopted for Certification are usually based on Australian and New Zealand standards, or AFRDI standards, or – where these are not available or relevant – on other well recognised standards, such as British, CEN, BIFMA or ASTM, for example. In some instances where none of these exist, we may develop a set of customised requirements. Whichever route to certification is taken each of the requirements listed above must be met to our satisfaction.

AFRDI Blue Tick Certification requires that suppliers sign a certification agreement undertaking to maintain consistent quality of their products, to maintain a register of complaints, to notify the Institute of product changes, to have the products retested every three years and when standards change, and to submit to spot audits of product quality. AFRDI Blue Tick Certification is open to all suppliers whose products meet the required standard and involves an annual certification fee to cover monitoring costs.
