

Eden chair meets AFRDI '160kg rated load' Standard

Furntech-AFRDI wishes to congratulate Eden Office Seating as the first company to have an office chair satisfy AFRDI Standard 142 - Rated Loads for Office Swivel Chairs at 160kg.

The Spectrum Long/Wide Seat was tested to qualify for 160kg single-shift operation, one of the four test options in AFRDI 142.

AFRDI Technical Manager, Ian Burton, said he was pleased to see the first chair pass the 160kg single-shift level of the Standard which, for all combined tests, involves around half a million cycles of various load applications at many points on the chair and components.

Philip Win, General Manager of Eden Office Seating, said he was delighted to be able to offer a chair suitable for single-shift use by people up to 160kg.

AFRDI has other chairs on test and expects to see this list grow. At the same time, AFRDI has just released AFRDI 151 Rated Load Standard for Fixed Height chairs.
