

The Furntech-AFRDI Blue Tick **Office Chairs List**

Certified height adjustable swivel chairs

The following products have been found to comply with the appropriate standard and certified under the Blue Tick Product Certification Program conducted by Australasian Furnishing Research & Development Institute (Furntech-AFRDI).

Blue Tick Certification requires that suppliers sign a certification agreement undertaking to maintain consistent quality of their products, to maintain a register of complaints, to notify the Institute of product changes, to have the products retested every three years and when standards change, and to submit to spot audits of product quality. Blue Tick Certification is open to all suppliers whose products meet the required standard and involves an annual certification fee to cover monitoring costs.

The Institute welcomes questions concerning the standard or the products listed and, in particular, where products not listed below are represented as complying with standards.
