

The Furntech-AFRDI Blue Tick

Office Chairs Components List

Components Certified for use on
Fixed Height and Height Adjustable
Swivel Chairs

Components Prequalified for AS/NZS 4438

The Australian/New Zealand Standard for Adjustable Height Swivel Chairs (AS/NZS 4438) requires that mechanisms, gas springs, bases and castors show compliance with AFRDI Standard 109. The components listed below meet that requirement. In addition, the list includes office chair arms that have been certified to meet the requirements of AFRDI Standard 109.

Furntech-AFRDI Approved Products

The suppliers of the listed products have undertaken to maintain quality standards, to advise Furntech-AFRDI of model changes and complaints and to accept a system of random audits.

Blue Tick Certification requires that suppliers sign a certification agreement undertaking to maintain consistent quality of their products, to maintain a register of complaints, to notify the Institute of product changes, to have the products retested every three years and when standards change, and to submit to spot audits of product quality.

Blue Tick Certification is open to all suppliers whose products meet the required standard and involves an annual licence fee to cover the cost of monitoring quality.

Arms AFRDI Standard 109.8

The following fixed height/adjustable height arms have been tested and found to comply with the relevant requirements of AS/NZS 4438 when fitted to a rigid test frame. The performance of these arms when attached to a particular chair will depend on the strength of the anchor point, connections and brackets.
