

The Furntech-AFRDI Blue Tick List **for Office Desks, Office Workstations** **and Tables Intended to be used as** **Office Desks**

Products Certified based on the
Australian/New Zealand Standard
AS/NZS 4442

Furntech-AFRDI Approved Products

The suppliers of the listed products have undertaken to maintain quality standards, to advise Furntech of model changes and complaints and to accept a system of random audits.

Standard Update

AS/NZS 4442:1997 *Office desks*, and AS/NZS 4443:1997 *Office Panel Systems –Workstations* have recently been combined, updated, and published as AS/NZS 4442:2018 *Office desks, office workstations and tables intended to be used as office desks—Mechanical, dimensional and general requirements and test methods*.

New and renewing AFRDI Blue Tick Certifications will be based on the new Standard.

Testing that was under way, or just completed, at the time of AS/NZS 4442:2018's publication will have their certification based on the older edition.

Certifications based on the older editions can be upgraded before they are due for renewal, but this will necessitate testing and incur a cost. Please contact AFRDI if you want to upgrade your certification prior to its renewal date.

Certification Criteria

The Institute has clearly defined certification criteria for various items of furniture and furniture components. These are continually being expanded to meet demand.

The criteria generally include requirements for:

- (i) strength
- (ii) durability
- (iii) stability
- (iv) function e.g. fitness for purpose (usually including ergonomic and basic safety criteria)
- (v) flammability (where appropriate)
- (vi) reasonable finish and workmanship

Published by the Australasian Furnishing Research and Development Institute, an independent not-for-profit technical organisation serving furniture buyers and sellers in Australia and New Zealand. **Free advice for purchasers and specifiers on 1800 686 789.**

The Furntech-AFRDI Desk & Workstation List

Published by the Australasian Furnishing Research and Development Institute an independent not-for-profit technical organisation serving furniture buyers and sellers in Australia and New Zealand.

Free advice for purchasers and specifiers on 1800 686 789.

The performance criteria adopted for Certification are usually based on Australian and New Zealand standards, or AFRDI standards, or – where these are not available or relevant – on other well recognised standards, such as British, CEN, BIFMA or ASTM, for example. In some instances where none of these exist, we may develop a set of customised requirements. Whichever route to certification is taken each of the requirements listed above must be met to our satisfaction.
