

***The Furntech Blue Tick***  
**Plastic Monobloc Chairs List**  
Chairs Certified based on Australian/  
New Zealand Standard 3813

***Furntech-AFRDI Approved Products***

The suppliers of the following products have undertaken to maintain quality standards, to advise Furntech of model changes and complaints and to accept a system of random audits.

***Certification Criteria***

The Institute has clearly defined certification criteria for various items of furniture and furniture components. These are continually being expanded to meet demand.

The criteria generally include requirements for:

- (i) strength
- (ii) durability
- (iii) stability
- (iv) function e.g. fitness for purpose (usually including ergonomic and basic safety criteria)
- (v) flammability (where appropriate)
- (vi) reasonable finish and workmanship

The performance criteria adopted for Certification are usually based on Australian and New Zealand standards, or AFRDI standards, or – where these are not available or relevant – on other well recognised standards, such as British, CEN, BIFMA or ASTM, for example. In some instances where none of these exist, we may develop a set of customised requirements. Whichever route to certification is taken each of the requirements listed above must be met to our satisfaction.
