AFRDI Blue Tick certification criteria are based on **AFRDI Standard 126:2003 – Monitor arms for visual display units** but may include additional requirements and variations as deemed appropriate by Furntech-AFRDI.

Testing and evaluation was conducted on the specified unit/s, or selected samples from the range, such that in the opinion of Furntech-AFRDI all items (as tabulated below) should perform satisfactorily in relation to the certification criteria. Certification is limited to the features and options depicted and listed on this certificate.

The supplier having agreed to maintain the compliance of the product and to submit to retesting and auditing as appropriate, the Australasian Furnishing Research and Development Institute hereby certifies the **product** (as specified below) under the AFRDI Blue Tick Product Certification Program.

The maximum recommended load is specified by the manufacturer and used as the basis of the AFRDI 126 strength and fatigue test loads.

Certification is valid until the expiry date but may be suspended, revoked or renewed.
